

## Sprint Retrospective

What went well	What went wrong	What can be mproved
Search for user address	Tracking of students' geolocation for face to face meetings not completed	Have regular
User can create a meeting and organise study session	Implementation of issues still in progress	collaborate more to stay up to date with everyone's progress
User can create a meeting and organise study session	Some user stories not completed	Clearer task allocation
creating, joining and searching for groups completed	Limited time did not allow for implementation of certain issues	Work in pairs on interlinked issues
creating, joining and searching for groups completed	Invitation to join a group and applications to a group still in progress	Use seperate branches for developer stories/issues
Group member voting page created	Minor confusion led to developers working on the same issues	Improve communication
	some issues not started on time	Have regular meetings

### Sprint velocity

User stories completed	Story point assigned
As a student, I want to be able to create a group so that I and others can join	5
As a student, I want to be able to search for a group so I can consider joining	3
Total sprint velocity sprint #1	8
